PRATIK JANJAL

Marketer & Designer

Profile

Creative and data-driven Digital Marketer with expertise in SEO, social media marketing, and performance campaigns. Strong focus on building engaging digital experiences by combining design principles with strategic marketing execution, supported by a foundation in Web development.

Experience

March'25 - November'25

Web developer

The Sattva tech

Worked as a Web Developer, contributing to multiple live projects and collaborating directly with clients to deliver high-quality, responsive web solutions. Earned a strong reputation for reliability, clean execution, and the ability to understand both technical and design requirements, helping teams ship polished, client-ready products.

Projects

Easiest Exam - Web App

[Link](#)

Built a responsive web application for the 'Easiest Exam' campaign to promote early breast cancer detection. Designed a clean, userfriendly interface with guided selfexamination steps.

Zyodus Nav -Web App

[Link](#)

Developed a React-based hospital navigation app for a 15-floor facility with responsive UI, SEO optimization, and analytics to improve user flow and patient experience.
